

Press Release

Traitorous Hasina Opens Bangladeshi Ports for Indian Trade Another Desperate Attempt to Please Enemy India before the Looming Election

Hasina government has signed yet another treacherous treaty with India on October 25, 2018 for allowing them to use Mongla and Chittagong ports as transit points to access India's northeastern states for trade. When these ports are suffering from severe inadequate maritime infrastructure due to which the Bangladeshi shipping liners are not being allowed to launch new container vessels, Awami League (AL) government signed this anti-state deal to secure to come to power once again in the next election. Already it gave transits to the enemy and also gave it access to our strategic oil and gas sector, ignoring the security threat of Bangladesh; and, is now actually building infrastructure for Indian economic interests, neglecting the basic infrastructure of our country. This traitorous government is not leaving any stone unturned to please its master, signifying the depressing worthlessness of AL-BNP politics which exists only to serve the interests of the Kafir Imperialists and their regional allies at the expense of the people of the country.

O People! The devious politics of Awami League has made Bangladesh a pliable ground for Mushrik India who is set to use our geo-political position for her regional dominance, and wants total control over our strategic resources and locations for her own economic and political benefit. And the BNP-Jatiya Oikkyia Front is also no panacea as they are also directing their politics within the framework set by the Kafir Imperialists and aiding them in their evil ploy to dominate Bangladesh by maintaining the continuation of the rotting ruling system of democracy. **Hizb ut Tahrir** calls upon you to reject the decaying politics of Awami-BNP-Oikkyia Front, the agents of Kafir Imperialists. We urge you to unite under the sincere leadership of Hizb ut Tahrir in its struggle to re-establish the promised Khilafah Rashidah (Rightly Guided Caliphate), which will consolidate the immense resources of the Ummah as one state to break the neck of the evil American-British-Indian nexus. Allah subhana wa ta'la says:

(وَلَنْ يَجْعَلَ اللَّهُ لِلْكَافِرِينَ عَلَى الْمُؤْمِنِينَ سَبِيلًا)

“And never will Allah give the disbelievers over the believers a way [to overcome them].” [An-Nisa: 141].
