Hizb ut Tahrir / Wilayah Bangladesh organized Protests and Marches against the Treacherous Treaties with India allowing her Use of our Ports as her Transit Points

Hizb ut Tahrir / Wilayah Bangladesh on this Friday (2/11/2018) after Jumma organized protests and marches in various mosques in Dhaka against the treacherous treaties by Hasina regime allowing India to use the ports of Bangladesh as her transit points. The treacherous Hasina government has signed this treaty with India on October 25, 2018 allowing India to use Mongla and Chittagong ports as transit points to access India's north-eastern states for trade. Speakers labelled this type of anti-state treaty before the looming election as political bankruptcy, and said that the government has lost the people's support and trust because of its endless tyranny, corruption and oppression; so, to get to power again, she is not leaving any stone unturned to please her foreign masters. This is just an example of ignoring the national security of Bangladesh and giving this type of transits to this enemy state. On the other hand, BNP-Jatiya Oikyafront leaders, who claim to be saviors of the nation, are following Hasina's footsteps in also trying to get support from the same US-Britain-India to get into the power, and by shamelessly including imperialist interest in their goals.

The speakers also said that the main motto of last three decades of the so-called democratic politics of Awami-BNP ruling elite – Imperialists are all the Source of Authority - has made Bangladesh a pliable ground for Mushrik India and Kafir Imperialists. And by using this opportunity they have extended their evil hands to capitalize on our geo-political position for their regional dominance and control over our strategic resources and locations for their own economic and political benefit.

Lastly, the speakers called upon the Muslims to reject the bankrupt politics of Awami-BNP-Oikya Front, the agents of Kafir Imperialists and unite under the sincere leadership of **Hizb ut Tahrir** in the struggle to re-establish the promised Khilafah Rashidah (Rightly Guided Caliphate), and said that only the Khilafah state (Caliphate) will protect the Muslim Ummah from the dominance of the Kafir Imperialists, will nullify all the treaties with the Kafir colonialists that were done to ensure their dominance over our military, economy and strategic resources, and will build a war based heavy industry and a strong army to establish itself as a leading state. Above all, the Khilafah will unify the immense resources and power of this Ummah under one state and break the neck of the evil American-British-Indian nexus. Allah Subhanahu wa Ta'la says:

(وَلَنْ يَجْعَلَ اللَّهُ لِلْكَافِرِينَ عَلَى الْمُؤْمِنِينَ سَبِيلًا)

“And never will Allah give the disbelievers over the believers a way [to overcome them].” [An-Nisa: 141].
