

Press Release

## O Servants of Colonialism: Lift the Siege on Jalame

(Translated)

For the seventh night in a row, our people sleep in the city of Jalame under siege by the security forces, and for more than a week, the protests continue, day and night, from the people of this city that rises against the oppression of the state of independence and this system that has been in place for ten years, which deceived people with false promises of development, investment and positive discrimination for the interior.

The colonial servants continued to blatantly treat the Muslim people of Tunisia with false slogans such as freedom, justice, equality and the right to work. This regime would not have continued to rule the country had it not been for the perpetrators of the ruling scene (and not rulers) continuing to eat from the dirty table of the capitalist crusader West that has secured them in their positions with a rope of conspiracies, assassinations, fabricating facts, and controlling public opinion under the heavy media layers of darkness.

Our people in the rebellious "city of Jalame", though they are isolated from the rest of the people due to media misinformation, their blessed uprising is a document of protest in the face of the oppressive rulers, and it is an argument against them in this world and the Hereafter. For what right does the thirst of people continue in this city in which the flow of water from Underground is heard with bare ears?! With what justification does hunger, marginalization and "disregard" continue for people who are impoverished by the state of modernity and independence?

**O our people in Jalameh and in all the lands of this dear country**, you have experienced these years of deception and seen the injustice of the capitalist system applied in the country, and the politicians put forward all the solutions and perceptions and changed all faces and even used their reserves, and they are now playing their last card.

Why do you not follow the path of your ancestor, the Mujahid Ali bin Ghadahim, who revolted against the Constitution of al-Aman (Pledge of Security) era for the year 1861, in which the Bey of Tunisia at that time violated the law of Lord of the Worlds in submission to the dictates of the crusader west?!

Why do people continue to whisper that the solution is to implement the great system of Islam, without the work being done to bring it back to the center of world civilization!?

Why are generations and ages extinct while waiting for what does not come?!

Why have Muslims become a laboratory for experiments in these man-made regimes and for the continuous constitutional revisions that increase people's lives misery and humiliation?!

The Almighty says: ﴿فَمَنِ اتَّبَعَ هُدَايَ فَلَا يَضِلُّ وَلَا يَشْقَى \* وَمَنْ أَعْرَضَ عَن ذِكْرِي فَإِنَّ لَهُ مَعِيشَةً ضَنْكًا﴾ **"Then whoever follows My guidance will neither go astray [in the world] nor suffer [in the Hereafter] \* And whoever turns away from My remembrance - indeed, he will have a depressed life."** [Ta-Ha: 123-124]
